

For Immediate Release:

***Westwood Plateau...  
One of BC's Best Companies to Work For in 2008!***

Coquitlam BC, November 26<sup>th</sup>, 2008: Westwood Plateau has once again been recognized as a company that stands out in British Columbia – and this time it has to do with being a great place to work! We are pleased to announce that BC Business Magazine and Caliber Leadership Systems have recently recognized Westwood Plateau Golf & Entertainment as being the ***11th Best Company to Work for in BC for 2008!***

“Best” can be a relative term, but BC Business Magazine teamed up with the organizational consultants Caliber Leadership Systems to determine quantifiable rankings. They gathered input from employers and employees alike, asking them to fill in multiple-choice surveys, which were translated into numerical scores. They gave the most weight to employee input with employee responses to a 52 question survey accounting for 70 percent of a company’s final score. Employer responses accounted for 20 percent and employee participation rates accounted for 10 percent.

In the ‘Top Companies With More Than 100 Employees’ category, Westwood Plateau was competing against no less than 46 other BC based businesses which featured the likes of 1-800-Got-Junk, Flight Centre North America, Microsoft Canada Development Centre, Cactus Club Restaurants and this year’s Best Company to Work for in BC which was Next Level Games Inc.

We would like to thank all of our guests for making Westwood Plateau an enjoyable place for our employees. We believe that a working experience is just as important as a guest experience.
